

*Message from Chief Cassell*

On behalf of the dedicated personnel that make up the Clark County Fire Department, I am pleased to present the 2016 Annual Report.

Throughout 2016, the Clark County Fire Department worked diligently to provide a consistent level of excellence as we responded to over 157,000 unit responses. Along with those incidents, the department participated in the planning and support of many large special events to include the New Year's Eve Celebration with over 320,000 participants, Electric Daisy Carnival with over 400,000 participants over three days, and for the first time ever in our community, the final presidential debate between Hillary Clinton and Donald Trump.

The CCFD remains committed to the goal of providing our community with excellent, compassionate emergency services to our residents and the more than 43 million visitors who make our community their annual destination of choice.

In closing, I must thank all of the men and women of this department who do their part to keep our organization moving forward as one of the best fire and EMS departments in the world.

### MISSION STATEMENT

*The Clark County Fire Department's mission is to provide for the safety and health of our Southern Nevada Communities and our visitors through professional emergency response, fire prevention, and public education.*
